EDUCATION

University of Louisiana at Lafayette

Bachelor of Science in Computer Science

Lafayette, LA

Expected Dec. 2027

Louisiana Tech University

Coursework toward B.S. in Computer Science

Ruston, LA

Aug. 2023 – May 2025

TECHNICAL SKILLS

Languages: Java, C++, Python, JavaScript, TypeScript, HTML/CSS

Frameworks/Libraries: React, JUnit, NumPy, pandas

Tools/Technologies: Git, Maven, IntelliJ IDEA, VS Code, Linux, Raspberry Pi, WebSockets

PROJECTS

Resound Control | *Git, Java, Maven, React, WebSockets*

June 2026 – Present

- Engineering a real-time digital mixer control app with a Java backend and React frontend
- Designed object-oriented mixer and control software using state management logic to simulate event-driven communication within a client-server ecosystem
- Implemented bidirectional WebSocket communication to send real-time updates between the backend and client
- Tested deployment on a Raspberry Pi 5 to model a standalone embedded control system

Sensory Piano | *Python, Raspberry Pi, UART*

Feb. 2024 – May 2024

- Built a piano system designed to help hearing-impaired users experience music through vibration
- Programmed a Raspberry Pi Pico and Raspberry Pi 3 to coordinate real-time input, output, and device behavior
- Implemented UART serial communication protocols to enable RPi-Pico coordination, reducing latency in vibration feedback delivery
- Earned second place among 30+ teams at the College of Engineering and Science Freshman Design Exposition after being viewed and tested by hundreds of people, including judges, professors, and attendees

EXPERIENCE

Audio Engineer

Seasonal, 2024 – 2026

Louisiana District Assemblies of God

Woodworth, LA

- Mixed and supported live audio for services and events with 400+ attendees
- Managed microphones, stage inputs, monitors, routing, and onstage sound equipment across multiple weeks
- Communicated with musicians, speakers, and production staff before, during, and after services
- Collected feedback and adjusted mixing choices to improve event quality and consistency
- Invited back for a second and third year due to reliability, technical competence, and quality of work

Live Sound Engineer

Sep. 2024 – May 2025

Harvest Assembly of God

West Monroe, LA

- Operated live sound for weekly rehearsals, services, and church events
- Troubleshoot audio issues involving microphones, instruments, monitors, and signal flow
- Collaborated with volunteers and musicians to create a clear and consistent worship environment
- Adapted quickly to unplanned issues during live services and performances

AVL Integrator

Mar. 2020 – Sep. 2020

Soundbox, LLC

Eunice, LA

- Created custom solutions for smart gates, video monitoring, venue lighting, and large venue sound systems
- Calibrated residential and commercial sound systems for clear audio output
- Maintained a consistent standard of work before, during, and after each project
